24 Students of **ITL Public School** attended the **Annual Itihaas Meet**, the highlight of which was the opportunity of the students to interact with special *guest of honour*, **His Holiness Dalai Lama**.

The energy of the great soul was such that the students even before meeting him were enthralled. He reminded everyone of the timeless life values, laying maximum stress on compassion. His Holiness reinforced the students to work upon *the ability to stay anger-free*. He made them feel responsible and empowered with the fact that they were the 21st century generation and the world belonged to them.

The students went with the beautiful thought that *the more they radiate with inner peace the same will then get reflected outside, transforming itself into world peace*.
