

Seminar: Impact on Global Warming- Ozone Layer(IGWOL 2018)

Date/Day : 16 September 2018/Sunday
Venue : Shiv Nadar University
Organised by : Shiv Nadar University
Attended by : Dr Vaishali Mishra, Ms. Shuwaita Kathpalia and Ms. Monica Bhardwaj

Teachers of ITL Public School attended a national workshop on “Impact on Global Warming- Ozone layer (IGWOL 2018) was held at Shiv Nadar University, Greater Noida on 16 September 2018. The workshop was organised on the occasion of **World Ozone Day** which started in 1994, to commemorate the Montreal Protocol which was set up to regenerate ozone layer.

The event was marked by the informative lectures by **eminent professors, Ecologist, Environmentalist and scientists from NESA (National Environmental Science Academy), DST, DU, IIT Delhi, Centre for Atmospheric Science and other universities of India.**

The University also organised an open digital poster competition to encourage young researchers to extend their work in the area of the environment protection, where research scholars from various universities participated. It was adjudged by **Dr Vaishali Mishra** from ITL Public School along with a panel of eminent scientists.

The day witnessed the importance of ozone layer and how its depletion has drastic effects on even the minutest details of our lives. We got the opportunity to enrich ourselves by the learning and research of great scientists.
