

REPORT ON NATIONAL SEMINAR ON GREEN BIOTECHNOLOGY

Date: February 14, 2019

Day: Wednesday

Venue: Bennett University, Greater Noida

Attended by: Dr Vaishali Mishra, Ms Shikha Sikka, Ms Shuwaita

Conducted by: Bennett University

The Science department of ITL Public School attended a National Seminar on Green Biotechnology and its impact on Indian Economy, at Bennet University Greater Noida, on February 14, 2019. This workshop witnessed the presence of great personalities and Scientists working in the field of biotechnology who explained the current trends in evolution of green biotechnology and its industrial applications. The session was initiated by Acharya Balkrishna, the stalwart of Patanjali, who emphasised on closeness to nature being the essence to solution of all problems. He also portrayed the working of Patanjali on the principle of ZLD (Zero liquid discharge). The second session was taken by Mr. Narendra Bhooshan, CEO of GNIDA where he talked on the developmental aspects of a region being based on biotechnology. The final keynote session was addressed by Dr Kishore Desai, OSD of Economic Advisory Council to the Prime Minister and NITI Aayog, who focussed on the type of planning required for application and integration of biotechnology in society. The workshop concluded on a positive and thought provoking note by a panel discussion on Biomass production, biobased products and Biotech professionals in 21st century.
