

WORKING MODELS USING E – WASTE

DATE	:	August 29 th , 2018
VENUE	:	ITL Public School, Sec 9, Dwarka
ORGANISED BY	:	ITL Public School, Sec 9, Dwarka
CONDUCTED BY	:	Department of Science
PARTICIPANTS	:	Students of Classes VI to XI of ITL Public School.

Students from classes VI to XI displayed their projects/ models based on sustainable development, which they designed using parts of discarded electronic equipment's. The onlookers were truly mesmerized with the finesse with which the students refurbished parts of thrown away equipment to give shape to their models. Some of the models that captured attention were Range Detector, Energy from Vehicles, Remote Controlled Floor Cleaner, Hydraulic arm, Earthquake detector etc. The zeal with which the students participated in the activity was overwhelming. The activity was indeed a great learning experience for them. the '**E-Waste Management**' Drive may have come to an end, but our endeavour to restore the earth to its pristine glory by achieving a harmony between **DEVELOPMENT** and **ENVIRONMENT** will always continue
